SUMMARY

Final-year Computer Science Engineering student (2023-2027) with hands-on experience in Java, full stack development React.js, Node.js, and MySQL, including a production-style compliance platform, and automating CI/CD pipelines using Jenkins and Selenium. Strong foundation in Java, Object-Oriented Programming, and Data Structures, with practical use of agile development. Seeking an entry-level Software Engineer role to build scalable, high-quality

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

2023 – 2027

Knowledge Institute of Technology, Salem | CGPA: 7.2/10 (till 6th Semester)

Higher Secondary (Class XII)

2022 – 2023

Vedha Vikass Matriculation Higher Secondary School | Percentage: 68.5%

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, SQL.
- **Web Technologies:** HTML5, CSS3, React.js, Node.js.
- **Databases:** MySQL.
- **Software Testing & Automation:** Manual Testing, Selenium WebDriver, TestNG, JUnit, Maven.

PROJECTS

Women Safety & POSH Compliance Platform

React.js, Node.js,

- Built a full-stack MERN web platform enabling anonymous POSH complaint reporting and end-to-end case management for organizations.
- Implemented real-time alert notifications to improve emergency response and workplace safety communication.
- Designed role-based access control with separate permissions for employees, administrators, and case managers.
- Built a responsive, accessible UI for ease of use across devices.

End-to-End CI/CD Automation Pipeline

Java, Selenium, TestNG, Maven, Jenkins, GitHub

- Designed and configured an automated CI/CD pipeline using Jenkins, Maven, and GitHub webhooks to trigger builds on every commit.
- Automated functional testing of a web application using Selenium WebDriver and TestNG, reducing manual regression testing effort.
- Generated structured test reports and maintained build history logs to track software quality across releases.
- Practiced Java OOP principles and the Maven build lifecycle to keep the pipeline modular and maintainable.

INTERSHIPS & TRAINING

Frontend Development Intern – STACK QUEUE

Dec 2024 – Jan 2025 (2 Weeks)

- Built responsive frontend components and interfaces using HTML, CSS, and JavaScript.

Web Development Intern – LiTZ Private Limited

Jul 2024 (1 Week)

- Developed and maintained web application features as part of a collaborative development team.

Web Development Intern – IPCS Global Solution Pvt. Ltd.

Feb 2024 (1 Week)

- Contributed to web development tasks, strengthening practical skills in full-stack workflows.

TRAINING & CERTIFICATIONS

- **SQL Mastery with MySQL – LearnZConnect:** Gained hands-on experience in SQL, MySQL, database design, CRUD operations, joins, subqueries, aggregate functions, and data manipulation.
- **UI/UX Design Workshop (2-Day):** Learned UI/UX design principles, user research, wireframing, prototyping, design systems, and Figma for creating user-centered interfaces.

HACKATHONS & ACHIEVEMENTS

- Participated in the Codesangram Hackathon conducted by Alliance University, building a working prototype under time constraints. Applied full-stack and testing skills across multiple academic and hackathon projects.

LANGUAGES KNOWN

Tamil, English, Telugu
